CAREER SUMMARY

B.Tech IT graduate (2025) with strong foundations in software development, cloud computing, AI/ML, and data analytics. Skilled in C, Java, Python, JavaScript, SQL, and modern web frameworks. Certified across Google Cloud, AWS, Oracle University, Cisco (CCNA), TCS, Deloitte, and JPMorgan, demonstrating adaptability to software, cloud, data, and cybersecurity environments. Passionate about building efficient, scalable solutions and contributing to real-world engineering projects.

SKILLS AND STRENGTHS

Programming Languages - C, Java, Python, JavaScript, HTML/CSS
Frameworks & Tools - Frameworks: React.js, Node.js, Java, Angular.js, Python.
Databases - MySQL, MongoDB, Oracle SQL
Cloud & DevOps - AWS, Google Cloud, CI/CD pipelines, IAM, Serverless Services
Networking - TCP/IP, HTTP, Routing & Switching (CCNA)
Other Tools - VS Code, Postman, Jupyter Notebook
Languages known - English • Tamil • Hindi • Malayalam

CERTIFICATIONS

Oracle University
AI Vector Search • AI Foundation • Data Science Professional
Google Cloud
ML Engineer • Generative AI • Large Language Models • Responsible AI
AWS
Serverless CI/CD • IAM • Cloud Practitioner • DevOps Essentials
Cisco (CCNA)
Networking Basics • Introduction to Cybersecurity • Networking Essentials
TCS Virtual Internships
ESG • Cybersecurity • Generative AI
Deloitte Virtual Experience
Technology • Data Analytics • Cybersecurity
JPMorgan (Forage)
Software Engineering • Quality Engineering (QoR)
Other Infosys Strategy • SQL Foundations • Python Foundations • Cloud Data Foundations (LinkedIn Learning)

EDUCATION

B. Tech., – Information Technology | Loyola Institute of Technology, Chennai (2021–2025)
CGPA: **7.8/10** | Dean's List 2024–25
HSC – 88% | All Angels Matric Hr Sec School, K.K. Nagar, CH (2020–2021)
SSLC – 83% | GRT Mahalakshmi Vidyalaya Matric Hr Sec School, Ashok Nagar, CH (2018–2019)

EXPERIENCE

Software Development Engineer Intern — MRPL More Retail Pvt Ltd, Mumbai *(Mar 2025 – Jun 2025)*

- Built and tested Google Ads API integrations on GCP. Supported CI/CD pipelines and collaborated in Agile sprints. Assisted in automation tasks and debugging cloud-based workflows.

Web Developer Intern — Egitim Ventures Pvt Ltd, Chennai *(Aug 2024 – Sep 2024)*

- Developed responsive web modules using Angular & Node.js. Performed bug fixes, documentation, and UI improvements. Contributed to testing and deployment efforts.

PROJECTS

AI-Driven Psychological Wellness Chatbot *(Python, NLP, TensorFlow, Cloud)*

- Developed an AI chatbot for early-stage depression detection using sentiment analysis and conversational modeling. Implemented NLP pipelines, intent classification, and cloud-hosted backend.

Fraud Detection Analysis *(Python, SQL, Tableau)*

- Built an end-to-end fraud detection ML pipeline with real-time analytics dashboards. Performed EDA, feature engineering, and model evaluation. GitHub: github.com/Swazk/Fraud-Detection-Risk-Analysis

TransitSphere Navigation System *(C, SQL, Linux)*

- Designed route optimization algorithms with a database-backed navigation model. Designed route optimization algorithms with a database-backed navigation model.

Other Projects: Fingerprint Voting System, MERN Freelancing Platform, Handwriting Generation using GANs
